CLMA 
CLINICAL LABORATORY MANAGEMENT ASSOCIATION

As an active member of CLMA, you'll have access to world-class professional development, industry-leading education and valuable networking. Interact with peers from across the industry and build expertise that will sharpen your competitive edge.

Connect with like-minded laboratory professionals and grow your network.

- Network in-person with peers and share tips and tricks at KnowledgeLab, CLMA's annual conference
- Network with CLMA members close to home through CLMA's extensive chapter network across the country

Learn the latest trends in laboratory management and stay at the forefront of the profession.

- Enjoy exclusive access to the *Body of Knowledge* and self assessment tool, a learning road map that can help you identify your personal path toward competency as a laboratory leader
- Attend live *Body of Knowledge* webinars, focused on hot, trending topics
- Access the CLMA Online Education Center, designed to help you customize your online learning experience

Grow your career with job resources and define a path to help you get to the next level.

- Build skills in decision-making, critical thinking and change management by attending KnowledgeLab, alongside other aspiring and experienced laboratory leaders
- Get involved and gain leadership experience by volunteering on a CLMA committee or with your local chapter
- Discover your dream job in the CLMA Career Center

Be Inspired to shape the clinical laboratory industry and move your career forward.

- Advocate for the value of the laboratory to the C-suite, policymakers and the community with CLMA advocacy resources
- Discover new resources to help your laboratory team face its toughest challenges

- Access to the Career Center and resources
- Access to the full website community
- Access to the Advocacy Blog and news updates

Entry Membership

Entry Membership is designed for first-time CLMA members as an introduction to our organization. Entry Members receive the same benefits as an Associate Member, at a one-time-only, discounted rate.

Bundled Membership

The Bundled Membership enables hospitals, laboratories and other facilities to access CLMA's full membership benefits at a lower per-person-cost. Bundled membership allows your organization to assign three full memberships to members of your staff.

Bundled membership includes three CLMA memberships with full membership benefits. The membership resides with the facility so if one of the members leaves, the membership stays with the facility and can be re-assigned.

CLMA-SAFMLS Joint Membership

The CLMA-SAFMLS Joint Membership is available exclusively to military SAFMLS personnel and includes a yearly membership to both CLMA and the Society of American Federal Medical Laboratory Scientists (SAFMLS). Upon applying for this membership type, the application is sent to the SAFMLS board for review and approval. The applicant will receive a notification within 30 days that their request to join has been accepted, and to pay their membership dues to receive all CLMA and SAFMLS membership benefits.

As a CLMA-SAFMLS Joint Member, you will receive the same benefits as an Associate Member.

Emeritus Membership

Individuals who have retired from an administrative, managerial, or supervisory position in a clinical laboratory are welcome to renew their membership with CLMA as an Emeritus Member. Please note that this membership type requires the individual to be retired.
